Mr. Sumner Simpson, President,
Raybestos-Manhattan, Inc.,
c/o Raybestos Division,
Bridgeport, Conn.

Dear Mr. Simpson:-

I am in receipt of yours of the 5th instant, enclosing re-print of an article published by Dr. J. Rush Shull of Charlotte, N. C., also enclosing copy of the letter addressed by Mr. George R. Fable under date of December 18th, 1936.

I had previously received your letter of December 1st in which you enclosed a letter addressed to you by Dr. L. B. Gardener, same having been written under date of December 1st. In said letter, Dr. Gardener makes comment as to the article prepared by Dr. Shull.

I read all of these papers over very carefully last evening and, of course, this Dr. Shull uses a great many new terms, with which I am not familiar, however, I have arranged to discuss these papers with Mr. Mitchell, and we are then going to discuss them with Dr. Lynch, who is quite a celebrated Pathologist. The only comment the writer will make is that he thinks it a very good move on your part to decide to take the question up with the Metropolitan authorities and make the arrangement which you have made with Dr. Gardner, for as stated to you on a previous occasion, the last publications tend to show that numbers of Doctors, who have been able to purchase a medical dictionary, have decided to write articles using as many as these new words as they possibly can. All of which, in the writer's opinion, tends to confuse the layman, but does not tend to solve the problem, if it is a problem.

Thanking you for having sent me these papers, I remain

Yours very truly,

E. H. Jafford
