

Dear [REDACTED],

Thank you for your kind invitation to speak at the European Sustainable Chemicals Conference.

ECHA is not in a position to provide a speaker for this upcoming event. This is due to pressure on resources in the areas dealing with the universal PFAS Restriction. I do hope you appreciate our position and understand our decision.

I wish you a successful event.

Best regards

[REDACTED]

Subject: Re: Speaking Invitation | European Sustainable Chemicals Conference | 19 November 2024

Dear [REDACTED]

I hope this email finds you well and that you enjoyed your leave. Now that you have returned, I thought I'd follow up on the below invitation. We would very much like to welcome you to speak at the **European Sustainable Chemicals Conference on 19 November in Brussels.**

Have you had a chance to consider this invitation? We look forward to hearing from you.

Kind regards

[REDACTED]

Dear [REDACTED]

I am writing to invite you to speak at **Forum Europe's European Sustainable Chemicals Conference**, scheduled to take place on **19 November 2024, in Brussels**.

The conference will provide a platform for policymakers, industry leaders, national authorities and civil society experts to discuss critical issues surrounding the future of chemicals policy in Europe.

The focus for this year's conference will be the future of the REACH regulation, and the ongoing challenge of how to approach PFAS in Europe. It will look ahead to the new European Commission and Parliament mandate, and how sustainability and human health objectives can be balanced with the competitiveness of European economies. Discussions will address the complexities and challenges the chemicals industry faces and explore innovative solutions for a safe and sustainable future.

You will see from the attached conference programme that we have provisionally reserved a slot for you in the panel session entitled **Session 2: PFAS – What's the European Regulatory Trajectory and What Role for Innovation?**, taking place between **11:30 - 12:45** on 19th November.

In light of the new European Commission and Parliament mandate, the audience will be interested in hearing the new approach adopted by the Commission to the chemicals and PFAS legislation, the challenges and opportunities presented at the European level, and what steps need to be taken to secure a safe and sustainable future.

Both Forum Europe and the conference delegates, who represent the full cross-section of the stakeholder community, would very much appreciate your input to this event. We hope that you will be able to take part in this event and look forward to discussing this further in due course.

Kind regards,
[REDACTED]
