LINE: RAYLOC STANDARD QUALITY 57

PRODUCT: MASTER CYLINDERS (NON-SLEEVED)

DIFFERENCES vs PREMIUM: The Standard series master cylinders are honed to specifications and completely rebuilt using all new rubber cups and O-rings. The units are tested for both high and low pressure leakage.

By comparison, Professional Quality 47-series master cylinders are fitted with a non-corrosive sleeve with standard bore diameter. The reservoir cap is plated and a new seal is added. Each unit includes 100% new brass insert seats, check valves, top quality rubber cups, and O-rings. The master cylinders are then 4-stage tested using a computerized system.

STANDARD QUALITY 57-SERIES WARRANTY: ~~Six month replacement~~ 1 YEAR

PROFESSIONAL QUALITY 47-SERIES WARRANTY: Lifetime Warranty
