Subject: no GMO mosquitos please

Dear Ms. Beck,
I am writing to beg you not to release genetically engineered mosquitos in the Florida Keys or Texas for that matter. It is not wise to do this especially since there have been no long term studies of the effects of such a program. Your charter is to protect the people and that includes making prudent decisions that are based on longitudinal studies not just an idea for a quick fix with no knowledge of the potential harm that could arise in the future. Please choose caution over expediency and say NO to this program.

Sincerely,

Ex. 6
