

May 29, 1922.

Trudy

Dr. J. C. Aub,
Harvard Medical School,
Boston 17, Mass.

Dear Aub:

I have just received a check for \$13,858.86 from the National Lead Company as their contribution for the coming year. The other, of course, will come in later.

I want to suggest to you that since I shall be absent in the fall that you make out a statement sometime early in the fall of what the progress of the work has been up to that time and send it to the secretary of the Lead Institute with a statement that it is for the information of the various members of the Institute.

Very sincerely yours,

DLE:E

Lead fund

Funds

May 29, 1922.

Mr. C. F. Adams,
50 State Street,
Boston, Mass.

Dear Mr. Adams:

I am sending you a check
from the National Lead Company for
\$13,858.86, which is their contribu-
tion for the year 1922-23 to the
fund for the investigation of lead
poisoning and should be held
available for use during that
year for that specific purpose.
I requested them to make out the
check to you directly but they
evidently overlooked that.

Very sincerely yours,

DLE:E

May 29, 1922. *Lead Fund*

Mr. Morris B. Gregg,
National Lead Company,
111 Broadway,
New York City.

Dear Sir:

I want to acknowledge with many thanks your check for \$13,858.86 as your contribution to the study of lead poisoning for the coming year.

I sent some time ago to the secretary of the Lead Institute a statement of the progress that had been made up to that time on this work. Since then a number of interesting things have been developed and a further statement of it will be made in the early part of the coming academic year, so that the members of the Lead Institute may be informed as to the progress that is being made. I shall not attempt to send it in before then as Dr. Aub, who is in immediate directing charge of the investigation, is going abroad for a time for some observations over there which are partly in relation to this, and I have to be abroad myself in the autumn so that it may be some months after the year opens before we shall be able to send this statement, but I think that it can be done in my absence after Dr. Aub's return.

With many thanks.

Very sincerely yours,

DLE:E

Lea Freund

May 20, 1922.

Mr. Charles F. Tuttle,
American Institute of Lead Manufacturers,
90 West Street,
New York City.

My dear Sir:

May I ask you to inform me when the contribution of the Lead Institute for the coming year for the investigations here will be in hand in order that I may be able to inform the treasurer that it will be on hand at the time that our fiscal year for next year begins?

The University fiscal year begins on the first of July, and it is important for me to be able to report the situation of the Medical School before that time. I am informing you of this now because I do not think you are aware of the time at which our fiscal year begins and the consequent need sometime beforehand to have things in hand for the next year.

With very kind regards,

Sincerely yours,

DAVID LEE: E
