Dear Ted:

This note is to let you know the second shipment of documents left the plant yesterday afternoon. The following explains those boxes leaving 11/9/94:

- Box 1: Copies of documents which may be responsive to discovery requests
- Box 2: Copies of Peri's VCL and Epidemiology files
- Box 3: Copies of Peri's benzene files (not much; may be more in her office ?)
Originals of Miscellaneous benzene documents - MUST BE RETURNED
Original of Duncan litigation files - MUST BE RETURNED

The only documents which need to be copied are the originals in box 3. Everything else is a copy which we made at the plant. If any of your staff has a question, please ask the individual to contact me.

Sincerely,

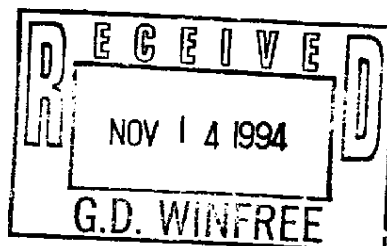

Karen M. Myers
