Re: Claim No. O.D. 10,134

Dr. H. H. Dorr
Medical Division
Industrial Commission of Ohio
Columbus, Ohio

Dear Dr. Dorr:

I am enclosing herewith report on re-examination of Mr. [redacted] together with my fee bill.

I have no further comment to make except to point out that the X-Ray examination which I requested at this time might better have been done at the original examination. I know of nothing more difficult in a diagnostic way than one of these elimination diagnoses. They always leave one with a feeling of dissatisfaction. I therefore felt that in justice to Mr. Hoevenaar we should entirely eliminate the possibility of some serious progressive disease, even though there was nothing in the physical findings to suggest such a condition. I feel much better satisfied with the result of our examination, and I feel that there is little question that this man has suffered from occupational causes. I believe he will show a steady improvement and will be able to return to his work without permanent disability.

Very truly yours,

RAK:IS

Robert A. Kehoe, M.D.

Mr. [redacted]
Jackson Place
Lockland, Ohio

Dear Mr. [redacted]

Having gotten the reports on your X-ray examinations, I find that nothing abnormal was found. This is what I expected and this leaves me convinced that you must have something done about your teeth. On this account I called up a friend of mine this morning, Dr. Harry Mathis whose address is 6001 Madison Road, Madisonville, and arranged for you to see him at or a little before eleven o'clock Monday morning. I have asked the Industrial Commission for permission to have this work done at their expense. They may or may not grant my request but in any case Dr. Mathis and I want to take care of you, and I urge you, therefore, to not fail to meet this appointment.

Sincerely yours,

RK:IS
