Mr. Robert A. Handelman
Project Coordinator
Chemical Plants Engineering
Department 110D
Goodyear Tire & Rubber Company
Akron, Ohio 44316

Dear Mr. Handelman:

In reply to your recent letter requesting the maximum threshold limit for Thermanol FR-1 in air, I have been authorized to tell you that this is a heat transfer grade of Aroclor 1242. This compound is biphenyl chlorinated to the extent of 42%. I have enclosed a reprint describing chronic studies with Aroclors 1242 and 1254.

If I can be of any further service, please do not hesitate to let me know.

Very truly yours,

R. Emmet Kelly, M. D.
Medical Director
