Subject: [Ex. 6 Personal Privacy (PP)], our son

Dr. Beck,

This is the face of our son, [Ex. 6 Personal Privacy (PP)] who died using the very chemical you protect, Methylene Chloride, for the financial benefit of Barr Chemicals.

It was Oct. 15, 2017 that my husband and I faced a police officer and the coroner at our door and heard the words that shattered our lives, "your son has died". This has been an unimaginable journey however, it's one that has led us to believe it is our duty to tell [Ex. 6 Personal Privacy (PP)]'s story.

His story for us began Oct 22, 2017 (2 days after Drew's memorial service) when we saw the story on the front page of the NYT. It was the day we learned the name Dr Nancy Beck and the affiliation with the American Chemical Lobbyists. It has continued thru our grief, by learning all we can about Methylene Chloride and the EPA's delay in regulating toxic chemicals.

Drew's story is just beginning and will not end until this dangerous chemical does not take another life.

We look forward to opening a dialogue with you and anyone interested in completing this story.

Sincerely,
Cindy and Hal Wynne
