

1 cetera.

2 And then there is a study in 199 -- I am
3 sorry, 1988 from Finland demonstrating the exact same
4 phenomenon, the presence of frank asbestosis, which I
5 should underline means heavy duty exposure to asbestos
6 in garage mechanics who worked on brakes in Finland.

7 Q Why is it important to you that there are
8 articles in the medical and scientific literature
9 which document cases of asbestos disease in brake
10 workers, when it comes to, let's say, the Wood case?

11 A Well, the simplest explanation is that this
12 allows me to be sure that the asbestos exposure that I
13 see was the cause of the mesothelioma that I see, and
14 that this was not a rare coincidence.

15 Q I have excerpts from four articles.

16 Let me ask you, are you familiar with the
17 publication by Lorimer?

18 A From 1976?

19 Q Yes.

20 A Yes.

21 Q And how about an article by Kauppinen?
