Re: Alfred Maurer vs. Scott Company
File: C661-100704 HOD

Gentlemen:

Liberty Mutual is presently in the process of investigating an industrial accident claim made by Mr. Maurer while he was alleged to be employed by you during the years of 1965 and 1968. His exact dates of employment are as follows. December 18, 1965 through December 31, 1965, December 31, 1965 through February 13, 1966 and February 21, 1968 through March 17, 1968. He was employed as a plumber and is alleging that his exposure to asbestos and other harmful foreign matter has resulted in damage to his lungs and respiratory system. As you may be aware, you have also been joined in this claim.

As the insurance carrier for Scott of California for that period of time we need the following information on the above captioned case in order to present our case effectively.

1. Date of employment and position held.

2. Description of his duties, please note particularly if he was exposed to an excess amount of asbestos particles and other foreign matter. As he is claiming a continuous respiratory trauma problem.

3. Place of location and state in which he was hired.

4. Copies of his employment application or pre-employment physical.

5. Copies of any industrial accident claims filed. We are especially interested in knowing of any respiratory claims reported. If he has filed any group claims, we would appreciate notice of this if they are involved with respiratory problems.

6. His total earning with you, the average hours worked per week, and his hourly wage rate.

7. The reason why he left your employment.

8. The name and address of the foreman if known.

9. Did he belong to a union, and the name of the union.

As you can see, I am especially interested in any respiratory or lung claims or complaints that he made while he was working for you and any comment in this regard would be valuable. Mr. Maurer's social security number is 083-10-3129.

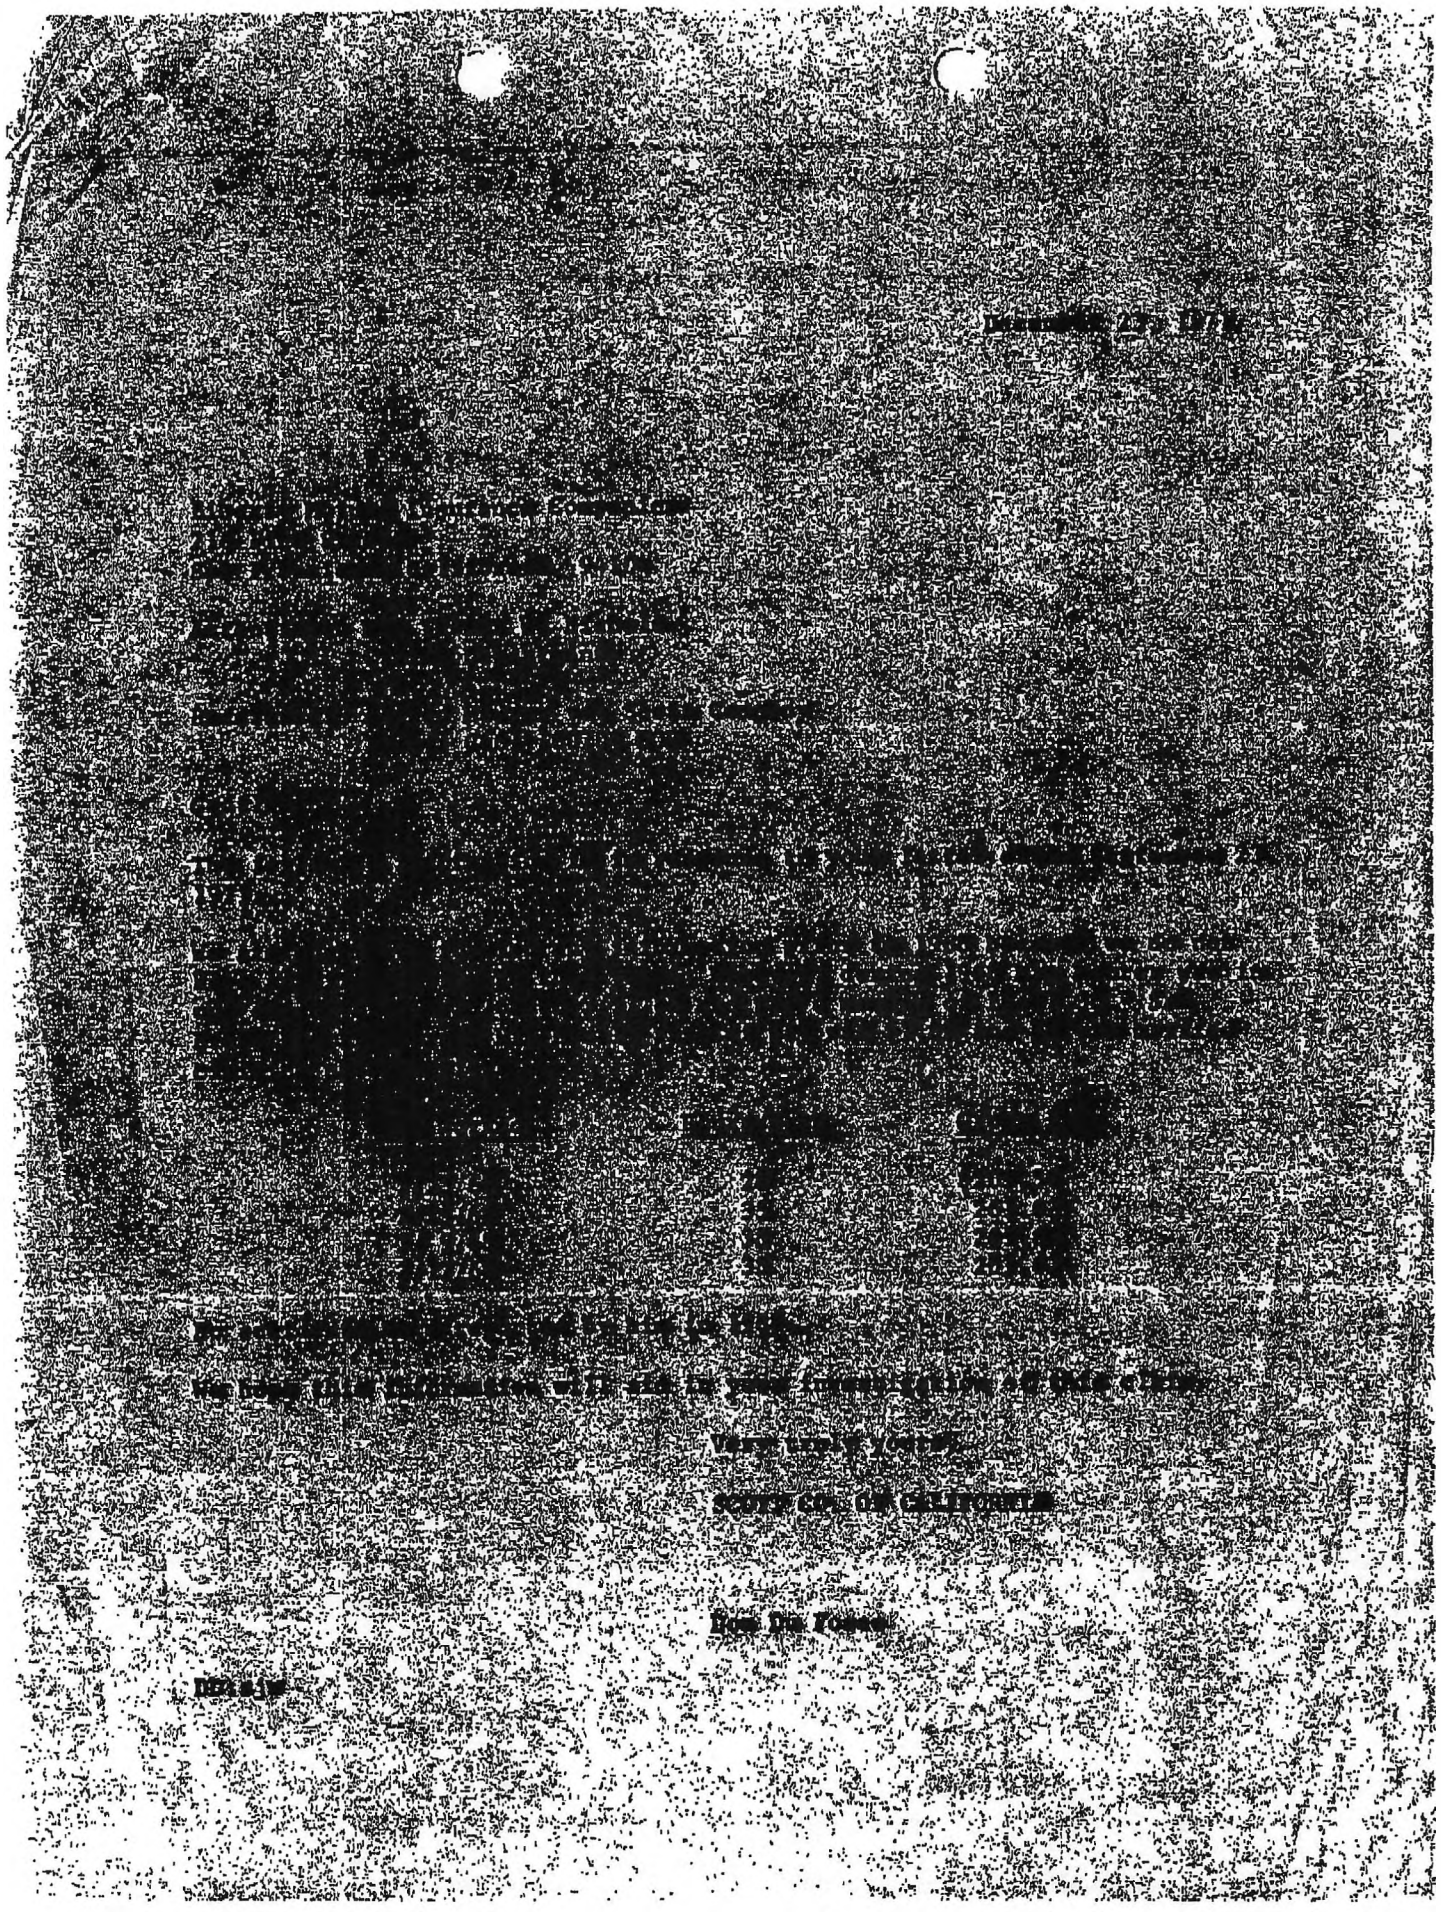

Thank you for your time, attention and cooperation.

Very truly yours,

LIBERTY MUTUAL INSURANCE COMPANY
