Mr. Robert A. Kehoe
Kettering Laboratories
University of Cincinnati
Eden and Bethesda
Cincinnati, Ohio 45219

Dear Bob:

I think I mentioned to you sometime ago that we would like to reproduce your article on the Treatment of Tetraethyl Lead to be distributed to the various medical consultants that Ethyl Corporation has around the world. The article is titled "Treatment of Organic Lead (Tetraethyl) Intoxication with Edathamil Calcium-Disodium". It was published in the October, 1954 AMA Archives of Industrial Hygiene and Occupational Medicine.

To avoid any question of problems of copyright, because we will be wanting to reproduce about 150 copies, would you mind signing the enclosed authorization and asking Jack Cholak if he would do likewise since he is the other author on the article, the senior author having been Karl Kitzmiller.

I will look forward to seeing you soon in connection with the work that I hope Stan Gross will be starting. My best personal regards.

Sincerely,

Mitchell R. Zavon, M.D.
