

Standard Equipment

The following accessories are supplied with every AMMCO Model 502 Tire Changer:

- A. No. 30041 Speed Cone-Lock. Heavy duty thread for fast installation. Operator need only hand-tighten to securely hold wheel/tire assembly for bead breaking, mounting and demounting.
- B. No. 141 Accessory Storage Tray. 4 deep compartments and 1 long tray for valve stems, tools and accessories. Attaches to end of Tire Changer.
- C. No. 145 Tire Lube Flask and Swab. High impact plastic. Mounts in convenient position on Tire Changer.
- D. No. 30081 Power Mount-Demount Tool.
- E. No. 31561 Lug Pin Extension. Required for wheels with high dish rims to provide longer length necessary to reach the wheel lug hole.
- F. No. 30821 Center Post Extension. Used to provide additional center post height when mounting/demounting wider wheels.

No. 135 Optional "Velvet Glove" Mag Kit

This provides extra protection when you're demounting/mounting tires on custom and alloy wheels. No metal ever touches outside surface of the wheel. Consists of No. 130 "Velvet Glove" Mount/Demount Tool, Cushion-Lock Hold Down, Table Pad Rim Protector, Rubber Spacer Ring, Centering Cone and Spring, Lower Bead-Breaker Guide for Eldorado/Toronado Wheels, Mag Lower Bead-Breaker Guide and Small Custom Wheel Cone-Lock.
