CC: [REDACTED] Ex. 6
Subject: STOP the release of GMO mosquitos

Ms. Nancy B. Beck,

I want it to be known I do not consent to the use of genetically modified mosquitos in Florida state - or anywhere in the world. Protect the humans from any further genetically modified organisms! There have been no environmental or human health studies on the effects of these GMO mosquitos.

Please, the safety of people should be your priority; not financial interest from these companies. Pursuit of happiness should be given to humans, not companies. Human lives and the environment over profit. We are not consenting to being guinea pigs for any genetically modified experiment/plan.

We have not been consulted on this issue! The British company, Oxitec, does not have my consent to decide on our health, our environment, or our economy.

A concerned citizen,
