GARLOCK INC.

Palmyra, New York 14522

November 4, 1965

Mr. John A. Brown, Jr. President
Asbestos Textile Institute
c/o Raybestos-Manhattan, Inc.
Manheim, Pa.

Dear Mr. Brown.

Mr. McMullen has sent me the file containing your letter of October 14, 1965 and his reply of October 13 relative to membership in the Asbestos Textile Institute.

Since your exchange of correspondence with Mr. McMullen, our Mr. N.L.A. Martucci has discussed the matter of membership in the A.T.I. for Garlock and has also had conversations with Mr. H.E. Sunbury, Executive Secretary. You have a copy of Mr. Sunbury's letter of October 22 to Mr. Martucci confirming the talks they had.

The purpose of my letter is to formally apply for membership in the A.T.I. in the name of Garlock Inc. under the conditions as outlined in Mr. Sunbury's letter of October 22.

With reference to Garlock's representation on the various committees of the Institute which would be of most value and interest to us, I suggest Mr. N.L.A. Martucci, Products Manager, for the Sales Promotion Committee and Mr. G. Elwood Houghton, Product Engineer, for the committees of Air Hygiene & Mfg and Technical. As for our representation on the Board of Governors, I shall be happy to serve in such capacity.

We are pleased to be participating actively once more in the A.T.I. activities and programs.

Yours very truly,

G. Parry Wiess
Vice President- Marketing

Attn: Mr. G. Parry Wiess
Vice President - Marketing

Dear Mr. Wiess:

We are more than pleased to receive your application for membership in A.T.I. Your application will be formerly voted on by our Board of Governors at our next meeting 10 February 1966. As our Board has already voted to extend you an invitation, this is merely a necessary formality.

Our first 1966 conference will be held in the Hotel Barbizon Plaza, 59th at Sixth Avenue, New York City on 10 and 11 February. Committee meetings take all day Thursday. The General Meeting is always on Friday.

We will be pleased to have you represent your company on our Board of Governors. Mr. N.L.A. Martucci is the logical man to serve on the Sales Promotion Committee.

We believe you have given Mr. G. Elwood Houghton two conflicting assignments. The Air Hygiene & Mfg. Committee meets separately from the Technical Committee. Both Committees generally have a very full one day agenda.

The Air Hygiene and Manufacturing Committee is concerned principally with dust control and manufacturing problems. This committee is composed principally of Factory Managers..

The Technical Committee is concerned principally with writing and rewriting specifications. This includes Federal Spes as well as ASTM Specs. The men on the Technical Committee are logically product development people. We therefore suggest the advisability of having Mr. Houghton serve on one Committee or the other, and appoint another one of your people to sit on the alternate Committee.

We look forward to the opportunity of welcoming you and your staff at our Conference next February.

Yours very truly,

John A. Brown, Jr., President
