Mark Sogge, I'll let you speak for your USGS colleagues in terms of the availability of the right person or persons to participate in the next smelt science call with the group. I think USGS' participation was helpful today, and so I hope the Survey can continue to participate in these periodic calls. If you agree, please provide John Watts with the right names and email addresses so he can add folks to the meeting invitation.

Thanks,
Scott

Sorry that the call got cut off.

Please let me know if you have any objection to the follow-up call being Wednesday April 26 at noon. Scott Cameron, I am counting on you speaking up for USGS about the next call time, because I don't have their contact information.

Best,

John
