

ITS NAME IS DU PONT self-cleaning HOUSE PAINT stays white!

Painting is essential today

These days, "make it last" is as important as "make it beautiful." That's why, when you paint, it's a good idea to get the best paint you can buy. Du Pont House Paint, for instance, Du Pont House Paint forms a beautiful, durable film—and guards the surface against rot, rust, decay.

Starts white—stays white

Moreover, Du Pont House Paint contains the whitest pigment known, Titanium dioxide—whiter than snow. So your house will start whiter-of-white, and stay that way. That's because...

It's self-cleaning

All paints collect dirt on exposure. But, with Du Pont House Paint, "self-cleaning" starts after a few months of normal weather conditions. A fine white powder forms on the surface. Heavy rains wash this away, carrying the dirt with it—leaving the newly exposed surface clean and white again! (Unusual climatic or dirt-collecting conditions in extremely sooty industrial communities may, of course, delay this process. Because this "self-cleaning" is gradual, the wearing qualities of the paint film are not abnormally affected.

Diplomats and statesmen who are people who still wonder, and not the least of these, perhaps, is Fuehrer Hitler.

The Danubian are the narrow, history-begotten straits connecting the Mediterranean and the Black Sea. Rumors probably would not be difficult to circulate from the Black Sea. The whole coastline and the country beyond, from the shore to the Danube and the Danube to the Black Sea, are under the control of the Danubian. The Danubian are the narrow, history-begotten straits connecting the Mediterranean and the Black Sea.

SALONIKA IS TOUGH
In the Balkan part of the Balkans, the Greek part of Salonika is no different matter today for the German army.
