October 26, 1971

Mr. K. Mason
Chrometography Associates, Inc.
P. O. No. 428
New Castle, Delaware 19720

Dear Mr. Mason:

I am sending under separate cover a sample of Aroclor 1254 as requested in your letter dated September 30.

I regret I could not include a sample of Aroclor 1232 because this product is no longer manufactured and our supply of samples has been exhausted.

Since these materials may cause environmental problems Monsanto has severely restricted sales to use in transformers, capacitors and non-food related heat transfer systems. Because of this marketing policy none of these Aroclors would be available to you.

I hope the lack of material does not seriously inconvenience you. If any of your customers desire standards for PCB analyses you may refer them to Monsanto for small samples of available material at no charge.

Sincerely,

W. B. Papageorge
Manager
Environmental Protection
