Chile pf
Warning Letter p

T. L. Gossage
B2SL

With reference to the request from Frank Camargo (attached) and the opinion of International law (attached) in consultation with MICC law and Monsanto Chile's legal consultants, I request approval to supply askarel transformer fluids to Codelco. We have received prior approvals from Sindelen and Rhona who are transformer manufacturers and have been supplying them with fluid in accordance with the PCB policy. Government regulations have necessitated the change. We are holding orders from Chile and have an urgent need to get a decision.

Thank you.

C. Paton
