

11 Lamb Bldg.,
La Junta, Colorado
April 20, 1927

Robt. A. Kehoe, M.D.
Cincinnati, Ohio

Dear Doctor:

I am taking the liberty of addressing you at the suggestion of Mr. Durham whose card I enclose. He has requested that I write and enquire whether you have open a place as inspector on your medical staff in connection with the ethyl gasoline work.

A few months ago I made Mr. Durhams acquaintance in a professional capacity. Now I find myself seeking a more ambitious field than I now have, therefore I write you.

I am 32 years of age, white, married with one child, a graduate of the University of Colorado School of Medicine in the class of 1925. Internship was done at the Fitzsimons General Hospital of the U.S. Army. Since I have been engaged in general practise in La Junta as a paid assistant to a surgeon. I desire to leave because the opportunity offered here is considerably less than I seek.

For reference I give you Mr. Durham, Dr. Maurice H. Rees, Dean of the University of Colorado School of Medicine, and if you wish to speak with one who has known me I suggest Dr. John A. Schoonover who is now a resident at the Children's Hospital of Cincinnati. You may also refer to a former resident of Cincinnati Dr. Casper F. Hegner of Denver.

Will you be kind enough to communicate with me in this regard for my present contract expires to-day.

Yours very truly,

Charles W. Grisham
