

1 TLV is five fibers per cc of less than five
2 Ms in length.

3 The next page, at the top.

4 Section 5. Health hazard data, threshold
5 limit value, asbestos of five fibers, effects over
6 exposure, pneumoconiosis.

7 If you will go to the bottom of the page.

8 Section 8, special protection
9 information. Respiratory protection. Specify type.

10 Bureau of Mines approved respirator for
11 asbestos dust. Local exhaust -- general local exhaust
12 is required to maintain TLV.

13 Your Honor, the next exhibit, OCF-229 dated
14 September 15th, 1970. I would move that into evidence
15 at this time.

16 THE COURT: It will be admitted into
17 evidence.

18 MR. MCGOWAN: Thank you.

19 (Whereupon, Defendant's OCF Exhibit Number
20 OCF-229 was received into evidence.)

21 MR. MCGOWAN: This is to C.E. Peck,
