

PLANT MANAGER'S SAFETY BOARD
MINUTES OF MEETING
June 27, 1984

Present were:

E. P. Bailey	J. L. Peterson for B. C. Lancaster
G. W. Bostick	J. D. Richards - Guest
C. M. Cruse - Guest	G. T. Ryan
R. A. Forsthoffer	J. G. Trafton
R. T. Hammann	G. L. Tromblee
R. L. Hammond	G. L. Wofford
S. G. Pappas	P. G. Vanderhoven for D. W. Metten

I. REVIEW OF STATISTICS - R. T. Hammann

A. Texas City Plant Safety Performance Summary - May

	1983		1984		1984 TARGETS
	MAY	YTD	MAY	YTD	
(A) INJURIES WITHOUT LOST WORKDAYS (medical treatment only)	0	2	0	1	7
(B) LOST WORKDAYS CASES	0	0	0	0	1
RESTRICTED ACTIVITY	0	0	0	0	--
DAYS AWAY FROM WORK CASES	0	0	0	0	--
(C) FATALITIES	0	0	0	0	--
TOTAL RECORDABLE CASES	<u>0</u>	<u>2</u>	<u>0</u>	<u>1</u>	<u>8</u>

INJURY RATES PER 200,000 MANHOURS

	1983		1984		1984 TARGETS	1984 MFIC	
	MAY	YTD	MAY	YTD		TARGET	APR YTD
TOTAL INJURY-TIR	9.97	10.35	3.36	9.80	---	---	---
TOTAL RECORDABLE-TRR	0.00	0.33	0.00	0.18	0.67	0.95	0.87
TOTAL LOST WORKDAY-TLWR	0.00	0.00	0.00	0.00	0.08	---	0.20
DAYS-AWAY-FROM-WORK-DAWR	0.00	0.00	0.00	0.00	---	---	0.15

B. Comments on Statistics - R. T. Hammann

There were no recordable injuries in May and there are no recordable injuries so far in June. We still need to keep awareness high due to the two major shutdowns occurring in August and October.

Paul Bailey reported that a 12-minute safety tape has been produced for the AN-5 shutdown and is currently being edited by Joe Swain. This will be used for all Monsanto and contract personnel involved in the AN shutdown. In addition, 5-minute safety meetings will be conducted for both operating and maintenance personnel at the beginning of each shift to address work to be done on the shift (potential hazards, special precautions, etc.), equipment to be used and any problems encountered on the previous shifts.

Areas having a high or increasing cumulative monthly injury rate are:

Dept. 48/56
Dept. 33 (most of problem due to air contamination incident)
Pipefitters
Pumper/Gaugers
Power 2
Instrument Dept.

Areas showing good or improving injury rates are:

Dept. 44/45/46
Boilermakers
Stores Dept.
Dept. 50
Carpenters

Areas having excellent safety records are:

Painters	- 6 months without an injury
HCN Complex	- 6 months without an injury
Insulators	- 10 months without an injury
Dept. 513	- 21 months without an injury

II. NON-MONSANTO SAFETY - Jeff Peterson

A. Contractor Safety

There were no recordable injuries in May. However, there was a lost workday injury in June when an employee of Continental Slip Form Builders suffered a bruised left foot when hit by a section of drilling tower while dismantling it.

B. CED Safety

There was very little activity and no injuries in May.

III. REPORT OF THE SAFETY ADVISORY COMMITTEE (SAC) - G. T. Ryan

- A. SAC's evaluation of the recommendations from the SHAC critique of the Emergency Procedures' Drill was reviewed. All PMSB members were

SC

STG 2430603

LAM015546

given a copy of this evaluation for further review. Two recommendations were returned for additional review to SHAC.

1. A task force will be formed to review the telephone communications in the Control Center.
2. Development of an improved system for better dissemination of information on the alarm code system and phone numbers for the emergency control center (i.e. information on wall plaques at instruction points).

SAC will also plan a walk-through on Friday, June 29th to ensure proper functioning of the streamlined control center operation.

IV. REPORT OF THE PLANT SAFETY AND HOUSEKEEPING ACTION COMMITTEE (SHAC) - E. P. Bailey

A. Hourly Safety Committee

1. Feel there is still a problem with vehicles parked outside designated parking areas in the plant without keys in the ignition. SHAC will work on devising a plan for improving this situation.
2. New members on the Hourly Safety Committee are: Madeline Hair, Robert Kozlek, Daniel Nelson and Ben Peek.

B. 2nd Quarter Safety and Housekeeping Inspection

Winners of the surprise inspection were Dept. 50, CED Warehouse, Machinists and Control Lab.

Discussion followed on plant acceptance of surprise inspections. It was decided that we will alternate between surprise and scheduled inspections in the future.

Responses to the inspection reports are due to Steve Moncla by July 15, 1984.

C. Contractor Safety

The Contractor Safety Procedure has been reviewed by the Legal Department and approved by Gene Tromblee. It will be typed in procedure form and issued.

D. STOP Program

Jack Richards reviewed the analysis of STOP observations for the month of May.

V. REVIEW OF INCIDENTSMonsanto Incidents:

<u>Date</u>	<u>Incident No.</u>	<u>Description</u>
-------------	---------------------	--------------------

There were no Monsanto incidents.

Contractor Incidents:

<u>Date</u>	<u>Incident No.</u>	<u>Description</u>
-------------	---------------------	--------------------

6/4/84	C-84-04	Lost Work Day Injury - Continental Slip Form Builders employee suffered severely bruised left foot when section of drilling tower fell during removal and hit his foot. (Supak)
--------	---------	---

VI. MISCELLANEOUS - R. T. HammannA. General Permit

Training has been completed, the procedure has been issued and personnel training in the units is in progress. Implementation of this procedure will start July 2.

B. Barricade Tape

New barricade tape with captions inscribed on it is now available from stores. The yellow tape used to designate caution or danger has the wording "Caution - Do Not Enter" on it in black letters. The red tape used for chemical spills or fires has "Entry Requires Special Permission" on it in black letters. Information on this tape will be disseminated to plant personnel.

C. Video Tapes

Information was handed out concerning new video tapes available from the Safety library.

VII. PLANT MANAGER'S COMMENTS - G. L. Tromblee

We have had an excellent safety record so far this year. Our recordable injury rate is the lowest among MFI plants. We need to continue this good effort through the upcoming major shutdowns.

Frank Reese will be here next Tuesday and will make short visits to units in the plant with a walk-through of AN-5. He will speak to expanded staff at 2:30.
