Dear Dr. Kehoe:

In further reference to my confidential letter to you of January 31 concerning a report of your contacts in Washington on the lead situation, I also understand from Mr. Webb that he would like to have some additional information regarding both the Deepwater and Baton Rouge situations so that he may report further on this subject to the Board at its meeting on February 14.

What is actually wanted are your own views of the current hygienic situation at both Deepwater and Baton Rouge based upon your recent visits and observations at those points.

Very truly yours,

J. R. Schaefer
