Mr. R. R. Linn
Chase Bag Company
Lagrin Falls, Ohio 44022

Dear Mr. Linn:

This will answer your letter of October 10, 1972 to Mr. Rauch, manager of our Akron plant. Our joint compounds and patching plaster do contain small quantities of asbestos. They do not contain talc nor do they contain any other ingredients which would be considered hazardous or toxic.

Please let me know if you require any further information.

Very truly yours,

C. W. Lehnert
C. W. Lehnert, Manager
