Dr. Roy U. Gardner's Notes and Memoranda
on "Asbestosis"
Yours July 16th

I was very much interested in reading your memorandum regarding the possibility of working out a plan whereby Dr. Lanza will complete the work that Dr. Gardner had started on the subject of Asbestosis and which is now in the hands of Dr. Lanza.

It is most important that some factual data be presented on this subject before the French-Canadian doctors decide to write something themselves.
