**Subject:** ESA WG reminder/rescheduling

Dear ESA Pesticide Working Group members,

You should have received a notification that the next ESA Working Group call has been moved to this Friday at 2:30pm due to some scheduling conflicts. It appears that this time works for at least one individual from each agency, but we hope as many of you as possible will join.

I also wanted to briefly remind you of the agenda, which is pasted below. If you have not already done so, we encourage you to get an update from your career/technical staff before Friday on how current efforts are going, specific roadblocks in their way, and any suggestions for how this Working Group might be able to help. We hope to have a productive conversation on Friday.

Thank you and please let me know if you have any questions.  
Alex

Dear ESA Pesticide Working Group members,

As discussed at our last meeting on May 18, CEQ is convening regular (roughly monthly) calls to monitor progress on the ESA/pesticides initiative. We propose scheduling a 30-minute call on **Wednesday, June 20, at 3:00pm**. If you have an irresolvable conflict, please provide some other times when you are available on Wednesday, June 20, and Friday, June 22.

We encourage the signatory agencies – EPA, DOI, DOC – and USDA to obtain a progress update from their staffs in advance of this meeting. This will allow us to compare notes and identify any challenges that might be addressed by the Working Group. A draft agenda is included below and the timeline developed by technical working group on pesticide usage data is attached. If you have any additional agenda items you would like to include, please provide these to me no later than Monday, June 18.

Thank you!
