Cust.	
Subj.	ASBESTOS FOLIOS

File No.
or Ref.
Date
OCTOBER 27, 1984

This letter to cover one customer and one subject only.

The attached list of folios are asbestos folios which will be double asterisked and listed as purchased items in the 4A4 Standard Material List. These items are presently stock items with a unit of measure of SF or LF, which required cutting of the material in the shops.

In order to do away with the cutting of these asbestos folios, we are looking for suitable replacements. However, until we do, we will have these items purchased to length on a system contract.

We are also looking into sending back the stock material we now have on hand. Therefore, I need a physical count of all items and, if possible, the on hand dollar value. Your quick response and cooperation will be appreciated.

If you have any further questions, please contact me on extension 2115.
