State of Massachusetts on a program to determine whether their industry should be classified as a hazardous one.

During our conversation they also brought out the fact that other parts of the country, including Albany, New York and Syracuse are concerned about this problem and they, too, are conducting this investigation.

This is a retyped version of our OCF Exhibit Number 58 dated May 9, 1957.

THE COURT: It will be admitted in evidence.

(Whereupon, Plaintiffs' Exhibit Number OCF 58 was received into evidence.)

MR. SMITH: This is on the letterhead of Ira Brought, the consultant, private investigator for OCF addressed to the President of Owens-Corning, Mr. Harold Boeschenstein.

Two serious blows have been dealt by the Asbestos Workers union during the past several months to the fiberglass industry.
