

1 Did I say that right?

2 A Correct.

3 Q Thank you.

4 I think you testified earlier today that you
5 started that in about 1969 and the results were
6 compiled for a few years and you were done in about
7 1972?

8 A I believe we ran the test in 1970, and the
9 internal report was done in '72 and the outside
10 publication at the Society of Automotive Engineers was
11 in 1973.

12 Q Okay. Earlier I think you stated
13 incorrectly that it was May of 1963.

14 And you meant 1973?

15 A Oh, yes, if I said 1963, I was definitely
16 wrong.

17 Q Okay, no problem.

18 Is it fair to say the main purpose of the
19 dynamometer testing was to measure the amount of
20 asbestos emitted from the brakes into the urban
21 atmosphere?
