

Online Meeting Arkema on SEA PVDF
24/01/2023, 15:00 – 16:00

Participants

Arkema:

- [REDACTED]
- [REDACTED]
- [REDACTED]
- [REDACTED] (Fleishman Europe),
- [REDACTED] (Fleishman Europe)

European Commission:

- [REDACTED] (DG ENV)
- [REDACTED] (DG GROW)

Notes

Arkema presented the results of the socio-economic analyses for Kynar PVDF. RPA and Arche have prepared the SEA. The SEA specifically focuses on battery, architectural coatings and chemical process industry. Details of the outcome of the SEA: see presentation and report. The Commission asked several clarifying questions on specific elements in the SEA.

25_ARKEMA PVDF_SE

The Commission indicated that broad PFAS restriction prepared by NL, DE, DK, SE and NO have been submitted to ECHA and will be presented on 7 February. ECHA's scientific committees RAC and SEAC will assess the dossier (as usual). After the assessment, the opinion will be sent to the Commission. The Commission advised Arkema to submit information during the consultations organized by ECHA answering the questions as specifically as possible. The Commission also mentioned a preparatory webinar on the public consultation to be held on 5 April.
