Subject ASBESTOS DUST PROBLEM

In his letter of April 1, Mr. Farrell has authorized me to cooperate with the Executive Committee of the National Insulation Manufacturers Association in the development of points of rebuttal on Dr. Selikoff's article on the ill effects of asbestos dust.

I will be happy to do whatever I can in this respect. If you will give me the details regarding this matter, I will make the necessary contacts and serve in behalf of the company.

H. R. Mesler, Jr.
