strike, the section did not meet on October 1, 1952.

At the meeting of November 5, 1952, HERBERT T. WALWORTH, Director of Industrial Hygiene, Lumbermens Mutual Casualty Company, gave a "Brief Summary of the National Noise Abatement Symposium."

The major address was given by CHARLES A. LOWE, General Manager, Maico Hearing Instruments, Inc., who discussed "Rapid and Accurate Industrial Hearing Tests." Through the liberal use of slides, MR. LOWE acquainted his audience with audiograms and the anatomy of the human ear.

The first issue of the Chicago Section Newsletter was mailed to members and has had an enthusiastic reception, and membership booklets were distributed to section members.

New England Section

THE ANNUAL Meeting of the New England Section was held at the Massachusetts Institute of Technology on November 14, 1952. The morning session consisted of a program of the following talks:

"Removal of Soluble Gases and Particulates from Air Streams (with special reference to Fluorides)" by EDWARD HEILY, DR. MELVIN FIRST and DR. LESLIE SILVERMAN, Department of Industrial Hygiene, Harvard School of Public Health, Boston, Massachusetts.

"Use of CO₂ Analysis in Carboxide Fumigations" by CDR. HARRY J. ALVIS, MC USN and LT. EUGENE C. STONE, MC USN, Squadron Medical Officers for Submarine Squadrons Ten and Two Atlantic Fleet respectively at the time.

"The Usefulness of Calcium di-Sodium Ethylene Diamine Tetra Acetate in the Treatment of Lead Poisoning" by DR. HARRIET L. HARDY, Occupational Medical Service, M.I.T., Cambridge, Massachusetts, and DR. R. RVEY B. ELKINS, Division of Occupational Hygiene, Massachusetts Department of Labor and Industries.

"Exposure of Connecticut Tobacco Growers to Parathion" by GRANT H. VANCE and REINHOLD A. SCHAEFER, Bureau of Industrial Hygiene, Connecticut Department of Health, Hartford, Connecticut.

"Urinary Excretion of Paranitrophenol following Exposure to Parathion" by DR. JAN LIEBEN, DR. RUDOLPH K. WALDMAN and LEONARD KRAUSE, Bureau of Industrial Hygiene, Connecticut Department of Health, Hartford, Connecticut.

"Carbon Monoxide Toxicity in Submarine Operations, A Case Report." CDR. HARRY J. ALVIS, MC USN Staff and C. W. TANNER, HMC (SS) USN, Submarine Development Group Two

USN Submarine Base, New London, Connecticut.

"Radiological Safety at M.I.T." by SAMUEL LEVIN, Radiological Safety Officer, Occupational Medical Service, M.I.T.

The Business Meeting closed the morning's activities. A two-hour tour of M.I.T. Radiological Facilities was held in the afternoon. This was followed by a Discussion and Question Period on Radiological Safety, conducted by SAMUEL LEVIN.

Southern California Section

THE ANNUAL Meeting of the Southern California Section was held at The Golden Pagoda on November 13, 1952. "Dust Evaluations in the Vicinity of Cement Plants" was discussed by JOHN SAUER and FRANK STEVENS.

H. L. MOTLEY, M.D., Ph.D., delivered a talk on "Pulmonary Function Studies." In addition to the excellent program, the election of 1953 officers was held. Ballots were mailed to all members of the Section and those unable to attend the dinner meeting were permitted to vote by mail.

Texas Section

THE ANNUAL Meeting of the Texas Section was held September 26, 1952, in Houston, Texas, in conjunction with the regional Gulf Coast Conference on Industrial Health, of which this Section is co-sponsor. The scientific program was provided by the Conference.

In view of the establishment of the North Texas Section AIHA, the name of the Texas Section was changed to the Gulf Coast Section AIHA. The State has been geographically divided equally between the two sections, along an east-west line.

The following members were elected for the coming year: President—MARTIN C. WUKASCH; President-Elect—DR. C. U. DERNEHL and Secretary-Treasurer—J. W. HAMMOND.

Michigan Industrial Hygiene Society

DR. WILLIAM G. FREDRICK, Director, Bureau of Industrial Hygiene, Detroit Department of Health, addressed the Michigan Industrial Hygiene Society, October 6 on "Health and Safety in German Industry." The discussion covered safety codes and laws; the policy of equal participation of labor and management in planning and executing health and safety programs; silicosis treatment and prevention; and research facilities in Germany. In addition, DR. FREDRICK showed some of the pictures he had taken while in Germany.

At a meeting on November 6, VINCENT F. MC-AULIFFE, Deputy Commissioner of Workmen's
