SCF-ABEX-2145

Whatever the application, Abex can meet the challenge.

We mean it. Abex has the Right Block to handle just about anything you dish out. Whatever you're matched with—a tandem, tanker, reefer, logger, school bus or delivery van—and no matter the type of driving, whether over-the-road, down steep grades or stop-and-go in the city—Abex has the Right Block that'll go the distance with safer, more effective stopping power.

And if you think that's a real knock-out combination, consider this: with the Right Block from Abex, you'll find your rig down less often and maintenance costs reduced. And when you're on the road more, you're making more money! So get it together. Paying less to start with could mean you lose over the long haul. Start fighting back with...

the Right Block!

All you have to do to take us on is contact your nearest Abex distributor or write:
Abex Corporation, Friction Products Group, 3001 W. Big Beaver Road, Troy, Michigan 48084. (313) 643-4400.
