

1 first used, and last used, and identify and produce a
2 copy of said warning or caution.

3 Ford's response was vehicles are not shipped
4 in containers, packages or boxes. After-market brake
5 linings and clutch facings are shipped in cartons to
6 authorized distributors.

7 Labels on the after-market product
8 containers, beginning in 1980, read along lines such
9 as, "Caution, contains asbestos fibers, avoid creating
10 dust. Breathing asbestos dust may cause serious
11 bodily harm.

12 "When servicing this brake lining, or any
13 other component related to it or located near it,
14 prevent asbestos dust from being airborne by vacuuming
15 this assembly with an industrial-type vacuum cleaner,
16 equipped with a high efficiency filter system, and by
17 washing the assembly with an appropriate brake parts
18 washer, if necessary.

19 "Never remove dust or dirt from this
20 assembly by blowing with compressed air."

21 Thank you, Your Honor.
