Cement Asbestos Products Company

Ragland, Alabama

August 16, 1972

FROM: W. H. Beasley

TO: Mr. S. D. Weaver

SUBJECT: OSHA Expenditures

1. Noise Control - A survey by Hearing Conservation Noise Control, Inc., has been made. They recommend hearing protection devices be purchased for the entire plant personnel. Some noise control devices also are recommended. Equipment for hearing tests are purchased already. Future expenditures est. $2,000.

2. Asbestos Dust Control - To meet the fiber levels, monitoring requirements, protective equipment, housekeeping, and medical examinations will require some immediate expenditures and some annually. Equipment expenditures needed are about $20,000. The medical program will cost $2,625. per year.

3. Miscellaneous Electrical - The estimate for various electrical changes in wiring, boxes, etc., are $1,000.

4. Miscellaneous Guardrails, Handrails, Platforms, etc. - The estimated cost of these items is $2,000.

The total expenditures expected will be $25,000. currently and $2,625. annually.
