flower street. This is the land to open Fifth street west of 10 avenue. At portion of the Normal Hill city west of Flower, needed for extension of Fifth street to street, has been dedicated. It is also a small portion of the property at Boylston and streets, needed for the extension which has been ordered by the City Attorney. Instruction work on the opening Fifth street will be ruled. J. F. ready, spokesman for the Fifth-street Improvement Association, yesterday, he declares nothing will be allowed to deter the factors in the work and that the through Normal Hill Center be started as soon as the legal of the tangle is unraveled.

Business is Not Nuisance, Hair Curler Asserts.

A much mooted question for the vicinity of Avenue 14 Main street is a residential district or an industrial one will probably be opened again for discussion by City Council.

Robert Miller, who declares he has been put out of business because the district's wandering has been decided, wants the matter reopened.

Miller sent a communication to City Council yesterday in which points out that he has been closing a hair curling factory at location in question for the past six years and that the industrial condition was established in 1914.

In his communication he states that his business is a nuisance also states that he moves will him nearly \$100,000.

A Council's action in creating industrial zone near Mr. Miller's factory was taken in response to a petition by property owners in which he declared that the hair-curling factory was ruining property values.

Best Paint Covers This Far →

Cheap Paint Goes This Far →

Which Paint Costs Less?

NOTE how the best paint spreads easier and covers more square yards than cheap paint does.

Figure in the extra gallons of cheap paint that you must buy and the extra cost of application.

It means that cheap paint costs just as much as good paint on the house.

The best paint then gives five or more years' protection to your property investment. Cheap paint, on the average, starts cracking in twelve months. Which paint costs less?

The house paints we specify for your home are the result of 72 years' experience in making paints and varnishes for every purpose. Made to stand the peculiarities of western weather.

The best material—PIONEER WHITE LEAD, pure linseed oil, zinc and color—are combined with long-time skill, in scientifically exact proportions.

Our white lead base must pass through a silk screen with 40,000 meshes to the square inch. A patented purifier makes it "whiter," so Fuller paints are exceptionally clear-toned. The paint when finished and applied on the house is a beautiful, elastic, tough, protective coating.

Such paint costs but a trifle more to buy per gallon and is five to ten times more economical in service.

Don't allow surfaces to rot. It costs less to paint them.

Fuller's SPECIFICATION House Paints
