Re: PWS ID Number: TX2510002
Administrative Order; Docket Number: SDWA-06-2025-1201

Dear Mr. Vasquez:

Enclosed is an Administrative Order (Order) issued by the United States Environmental Protection Agency (EPA), Region 6, concerning the City of Plains Water System. The Order requires the City of Plains (Respondent) to comply with the provisions set forth in the attached Order. The EPA requests that you immediately confirm receipt of this e-mail and the attached Order by a response mail to young.craig@epa.gov.

This letter acknowledges receipt of the arsenic compliance plan and construction schedule submitted by Respondent on November 07, 2024. EPA has determined that the plan and the construction schedule, which specify a timeline for bringing City of Plains Water System into compliance with the maximum contaminant levels for arsenic and fluoride, is a satisfactory response. EPA's acceptance of the plan does not guarantee compliance with the Safe Drinking Water Act (SDWA). Respondent remains solely responsible for compliance with the SDWA.

As a result of the terms and construction schedule specified in the plan, EPA hereby issues this Order (Docket Number: SDWA-06-2025-1201) to Respondent to implement the approved plan, including the implementation schedules specified in the enclosed Order. As specified in the Order, Respondent must achieve compliance with the arsenic maximum contaminant level requirement by December 31, 2025.

The City of Plains is also responsible for compliance with all applicable Texas regulations in Title 30 Texas Administrative Code (TAC), Chapter 290, and Subchapter D. Most treatment options require the submittal of engineering plans and specifications to the Texas Commission on Environmental Quality (TCEQ) for review and approval, as indicated in 30 TAC § 290.39(j). The engineering plans and specifications and any pilot study report must be prepared by a Texas licensed professional engineer as

required in 30 TAC §§ 290.39(d)(1) and 290.42(g), respectively. Please send submittals to the TCEQ Public Drinking Water Section addresses referenced in paragraph G of the enclosed Order and all submittals must include the EPA Docket Number.

Please be aware that failure to comply with the Order may subject you to additional enforcement action by EPA, including the initiation of legal proceedings to seek monetary penalties. If you have questions regarding the Order, please contact Craig Young, of my staff, at (214) 665-2275.

4. During the relevant time period, Respondent’s PWS served as a “community water system”, as defined by Section 1401(15) of the Act, 42 U.S.C. § 300f(15) and is subject to the requirements of the Act, 42 U.S.C. § 300g-1, and its implementing regulations, 40 C.F.R. Part 141.

5. The Texas Commission on Environmental Quality (TCEQ) and EPA have enforcement authority for the PWS provisions of the Act in the State of Texas. TCEQ and EPA have consulted regarding this Order, and it has been agreed that EPA would initiate this enforcement action.

The Respondent continues to be in violation of the arsenic and fluoride MCLs each quarter.

8. Respondent is required to comply with the arsenic and fluoride requirements of the Act, as set forth in Section 1412 of the Act, 42 U.S.C. § 300g-1.
9. In compliance with the previously issued AO, Respondent has 1) provided public notice as required by 40.C.F.R. § 141.201; 2) submitted a plan to EPA detailing how Respondent will return the PWS to compliance with the MCLs for arsenic and fluoride; and 3) provided EPA with an initial progress report on the compliance activities.
10. Respondent is hereby ordered to comply with the terms of the detailed plan submitted by Respondent and approved by EPA. The terms of the plan and compliance schedule are hereby incorporated (see paragraph D, below).
