4-3676 24 volt	Price \$13.35
4-3678 36 volt	Price \$13.45

L. REVERSE ALARM

SEMI SOLID STATE

System provides a completely automatic alarm instantly activated by rearward motion of the vehicle wheels. This advanced-design system is "triggered" by electronic sensing of backward motion and does not have to be activated by gearshift movement or other methods. It automatically starts with rearward motion, and automatically turns off when rearward motion stops. The complete system includes oscillator-speaker and signal flasher. (Activation switch needed in California and Pennsylvania.)

4-6355 12 volt	Price \$70.05
4-6356 24 volt	Price \$73.00
4-6357 Activation switch 12 volt	Price \$39.95
4-6358 Activation switch 24 volt	Price \$41.95

M. REVERSE ALARM

Economy back-up alarm and solid-state signal flasher for maximum life. Universal mounting bracket and lead wire furnished. Easy to install. Intermittent signal of about 105 "beeps" a minute.

4-6353 12 volt	Price \$29.00
4-6354 24 volt	Price \$31.50

N. HORN GUARD

Nickel chrome finish guard will not shake loose.
