Gentlemen, I would like to make some introductions.

Rich and Dimitri represent the group which the Administrator met with called AROW and Roger is now with General Electric. All these entities have a lot of experience from the PRP side and from the brownfields revitalization side of land clean up and redevelopment.

As we are developing our team within headquarters of career and policy staff to work on the superfund initiatives to get clean ups done in a targeted and quicker manner, convening an outside advisory group of stakeholders from industry and ultimately from other stakeholders and NGOs will be helpful to get broader support and technical expertise.

This introduction is the first step on that to meet jointly, separately, or both to initiate those discussions.

Thanks

Ryan.
