Mr. Elmer Wheeler
Monsanto Chemical Company
Lindbergh & Olive Street Road
St. Louis 24, Missouri

Dear Elmer:

Thank you for the carbon copy of the December 1, 1960, letter that you wrote to Dr. David E. Morris. I thought the information you gave was most clearly presented. We have tested these fluids and find that they also will present no special problems when used in our circumstances. We will probably settle upon the type of fluid represented by Pydraul. Best regards.

Very truly yours,

MALLINCKRODT CHEMICAL WORKS
