JAZ CKT-EES - review ways to max. effectiveness

1. Liaison contact samples MAY 20 1974

2. How can we avoid embarrass. E.E.S.
switch in question? - ex MAY 21 1974

3. How can we get more Def. advice E.E.S.

MBK
became
Chemotec

J. Stam - contact - ce info request - sent?

RH -

Freq of sampling - routine - what is adequate
what = 0 3x at < ½ TLV?

Wayne Haley - Dwaye Klein HJT will get info
chg. authors
what has been chg. x 665 in past year

HJT -

(1) Carb cleaner - does it need to
(2) De-Ice - from spray can
methanol 20
ethylene glycol 10
H2O 10
propellent = CO2

OK - yes ? no
need tests ?

Arsenic - and arsenites - prob. carcinogens.

Cadmium Reds - as insol. MAY 21 1974 toxic E.E.S.

Vinyl fluoride - TRC - prob not a carcinogen but has not been tested

Fluro - surfactants

< 50 ppb generally considered 0 for FDA food contact pages

Carcinogens - 0

J. I. Dye

QSA meet = Poppas

MAY 21 1974

E. E. S.

Customers - commuting runs - vented.
sampled air at workers breathing zone
over the TLV over rolls
under in breathing zone

Plastics Dept

Bags - post. pumps
fill bag in 5 min sampling
sev. betus sample
long path IR

Will involve flashed later
Without local vent. - will exceed TLV
workers may complain if below TLV

DUP050048129

Jim Clancy x 205 MAY 21 1974

E.E.S.

any RM contain arsenic cpds?

Geo—

G-221 5-1 antimony trioxide Sb_2O_3

749 lbs in 71 J T Baker contains 0.20% arsenic

W-52 5-1 antimony oxide

88 lbs in 71 0.35 arsenic
