

March 11, 1931

Dr. Ralph Morris,
Department of Medicine,
General Hospital,
Cincinnati, Ohio.

Dear Dr. Morris:

I am sending you herewith the completed report on our study of a case of lead poisoning.

I am sending the report to you because I thought you might be interested in the results, even though they are arriving very tardily, and further because I wish to make sure that they would be made a part of the record. I had understood that there might be some question of compensation in this case, and since our information fixes the industrial responsibility of this case beyond any doubt, it seems desirable to have it included in the record.

Cordially yours,

RAK:EJ
