Industrial Health  
1014 Broadway  
Cincinnati, Ohio 45202.

Dear Mr Lynch,

I am writing to thank you for the most useful information contained in your letter and attachments of 17 January 1968 regarding brake lining decomposition.

Our studies so far are in agreement with your findings in that we have been unable to find fibres during brake cleaning in service garages using thermal precipitators and membrane filters.

With many thanks,

Yours sincerely

Dr D E Hickish
