September 6, 1983

Mr. Tom Uhoda
Witco Chemical Co.
520 Madison Ave.
New York, NY 10022

Dear Mr. Uhoda:

In response to your request we have searched all available records to determine sales of the heat transfer fluid, Therminol® FR-2, to Witco Chemical Company, Perth Amboy, New Jersey, during the 1963-1972 time frame.

The results indicate the following:

Date	Product	Qty./Lbs.
1963	Therminol FR-2	2,000
1964	Therminol FR-2	14,000
1971	Therminol FR-1	8,400*

*Therminol FR-1, not FR-2

The only indication of any scrap PCB material being returned to Monsanto for incineration is one lot of six drums of "askarel" (electrical fluid) from Witco Chemical Company, 1914 South Kilbourn, Chicago, Illinois. No records regarding scrap material returned from Perth Amboy were located.

If you have any questions I'll be happy to try to answer them.

Sincerely,

John H. Craddock
Product and Environmental
Safety Director
