

October 29, 1936

Mr. F. E. Wormser
Lead Industries Association
420 Lexington Avenue
New York City
New York

Dear Mr. Wormser:

The talk which I gave before the Cincinnati Section of the American Chemical Society recently was made without manuscript, but rather with notes based on our experimental studies over a period of years with which you are already familiar through the articles which I have sent you from time to time. There was nothing particularly new in what I had to say.

Cordially yours,

RAK:is

Robert A. Kehoe, M.B.
