

ENTEC Services, Inc.

Pollution Control System Evaluation and Source Emissions Testing

February 21, 2003

Mr. Kenny Akins
Georgia Gulf
New Highway 25
Aberdeen, Mississippi 39730

Subject: **Multiple Source Emissions Testing**
 Annual Compliance
 Georgia Gulf - Aberdeen, Mississippi
 Entec Proposal No.: 23110

Dear Mr. Akins,

Thank you for giving Entec Services, Inc. the opportunity to be of service to Georgia Gulf Chemical Corporation. Included in this proposal is an outline of the project information, proposed services to be performed by Entec Services, Inc., and the project cost, which will apply.

Scope of Work

We understand the sources are to be tested for the following parameters.

Method 1-4	Determination of Volumetric Flow from Stationary Sources
Method 5	Determination of Particulate Emissions from Stationary Sources

Three one-hour tests will be performed on each of the sources.

Access to Test Location

We request the Georgia Gulf provide access to the location of the test ports on the sources to be tested.

Compensation

Entec Services Inc. will provide the services outlined in this proposal based on the cost outlined on the following attachment.

Cost is based on a ten hour work day, if unexpected conditions or process delays are encountered which are not in control of Entec Services, which should cause the testing to exceed the ten hour test period. Cost will be billed at a stand-by rate of \$85.00 hr per two-man test team.

Authorization

To authorize us to provide the proposed services, please issue a purchase order to proceed with the work. Any exceptions to this proposal or special requirements not covered in this proposal should be listed on the purchase order.

Entec Services, Inc. appreciates the opportunity to offer our services to your project and look forward to working with you. If you should have any questions, please call at 205/491-6676.

Sincerely,

Entec Services, Inc.
