**Re: IEPA Notice of intent to perform CERCLA expanded site investigation
of Krummrich Plant Site**

Enclosed is a clean copy (original to Gilhousen) of the referenced notice, received February 10, 1999 and dated February 2, 1999, informing Solutia of IEPA's intent to conduct an expanded Site Investigation of the Krummrich Plant site in May, 1999, under CERCLA authority. Initial speculation is that this is IEPA's response to the plant's application to enter into the Illinois SRP. Another initial thought is that this may offer a good business reason for Solutia to approach new IEPA Director, Thomas Skinner, and discuss this "intolerable and ridiculous waste of money...", as well as begin the process of bringing him into the broader Sauget Area discussion. Kevin, could you give some thought to this and perhaps discuss the merits with James McDaniel?

Joe Nassif, Steve Smith, Mike Foresman, Brent Gilhousen and I have a previously scheduled meeting Friday, February 12 to discuss IEPA's recent action on Site Q. We will briefly discuss this issue as well. Kevin, if you have any feedback by that time, I would appreciate it.

Thanks,

A handwritten signature in dark ink, appearing to read "M. Light".
