

Bloomington, Illinois
January 14, 1938

Mr. C.M. House:

Referring to your letter of Nov. 6 in connection with the Illinois Occupational disease act, address to Mr. Voorhees with postscript to me requesting that I instruct all foremen in the mechanical dept concerning possible hazards of asbestosis, silicosis and lead poisoning and recommendations for avoiding them as set forth by the General Managers Association Committee Aug. 14, 1937, File 1541.

I have interviewed all foremen concerned whose names appear below and re: them the instruction of the G.M.A. committee.
