

Multi-Purpose Vegetable Dust

A new combination insecticide-fungicide especially formulated for use on vegetables is announced by California Spray Chemical Corp. This new vegetable dust can be used on all vegetables, including tomatoes.

The active ingredients, methoxychlor rotenone and Zinc kill most

insect pests that attack garden vegetables and give control of many vegetable diseases. In addition to protecting vegetables the new vegetable dust controls most other pests and fungi that attack general garden growth, eliminating the need for other controls in the garden.

Shelve Emotions With It

By STEVE ELLINGSON

How are your emotions today? Do hate, fear, anger, and other emotions like that bother you? If they do then don't worry too much about it because I have an idea they bother everyone to a certain extent. Of course, if you are troubled with perpetual emotion, you should do something about it.

Most people use their tongue when something makes them angry or afraid. That's a powerful little piece of machinery and can get you in a lot of trouble. The thing to use to let off emotion is the hand—not the fist mind you—but an open hand. A fellow I know use his fist to let off his emotions the other day and he came home with
