Eden Avenue
Cincinnati 19, Ohio

Dear Bob:

I have been pretty dilatory with regard to our proposed patch testing study of lead stabilizers and hope that this has not inconvenienced Dr. Sushind. I have now reached an understanding with the National Lead Co., our member principally concerned, along the lines of our discussion in March and I anticipate no difficulty with the others, so we should be able to get under way very shortly.

Under separate cover I am sending you a complete set of the National Lead Co. bulletins which Dr. Sushind wanted. If you will send me two copies of the agreement form which you showed me, I will get this processed here and then secure for you 200 gram samples of the six substances to be tested.

Sincerely yours,

B/a
